# SE 216 – SOFTWARE PROJECT MANAGEMENT
# STAKEHOLDERS DOCUMENT

**PROJECT NAME:** StorySphere: A Safe and Interactive Digital Platform for Writers and Readers

**GROUP MEMBERS:** Efe Şahin, Selcen Aksu, Azra Bayhan, Berkay Gökçe, İsmet Eren Çetin, Ayça Baygar, Zeynep Ekin Zengin

| # | STAKEHOLDER | DESCRIPTION |
|---|---|---|
| 1 | Authors | • **Success Impact:** They gain a secure platform where they can generate income and engage in direct interaction (live streams, etc.) with readers.<br>• **Failure Impact:** The time spent migrating their works is wasted, and they lose their connection with their reader base.<br>• **Contribution:** Producing content for the platform, growing the community by staying active, and testing new features to provide feedback. |
| 2 | Readers | • **Success Impact:** They enjoy a reading experience in a safe environment—purified from 18+ content via age verification—with innovative features like |

| | | |
|---|---|---|
| | | "Blend" reading and AI translation.<br>• **Failure Impact:** They are forced to return to alternative platforms that are less secure and have limited interaction.<br>• **Contribution:** Consuming content, providing reviews/ratings, and keeping in-platform interaction alive by joining clubs. |
| **3** | Services and Providers | • **Success Impact:** Generating revenue from API calls as the system is used and hosting a successful use-case on their platforms.<br>• **Failure Impact:** Failure to reach expected API usage levels (the financial impact on them is minimal).<br>• **Contribution:** Providing seamless server, database, and AI services to ensure 99.9% system uptime. |

| | | |
|---|---|---|
| **4** | Competitors | • **Success Impact:** Risk of experiencing a decrease in market share and user bases.<br>• **Failure Impact:** They continue to retain their current users.<br>• **Contribution:** Indirectly serving as a source of inspiration and identifying a market gap through the analysis of their missing features. |
| **5** | Publishers and Editors | • **Success Impact:** They use StorySphere as a data source to discover new talents.<br>• **Failure Impact:** They remain limited to traditional methods and miss out on digital trends.<br>• **Contribution:** Extending professional offers to successful authors and increasing the literary quality of the platform. |

| | | |
|---|---|---|
| **6** | Manga Artists and Visual Artists | • **Success Impact:** They gain a technological platform where they can showcase their visual works (manga-style) rather than just text-based stories.<br>• **Failure Impact:** They lose the opportunity to present their works in a digital format.<br>• **Contribution:** Producing visual content and testing the visual reading performance of the Google Cloud Vision-based OCR system. |
| **7** | Accessibility Advocates | • **Success Impact:** An inclusive platform emerges where individuals with disabilities are included, thanks to audiobook support and minimalist design.<br>• **Failure Impact:** The platform appeals only to a specific audience and fails to be inclusive.<br>• **Contribution:** Guiding the development of minimalist design and audio content (audiobooks) |

| | | |
|---|---|---|
| | | features. |
| **8** | Advertisers | • **Success Impact:** Increasing brand awareness and gaining potential sales traffic by directly reaching a niche target audience consisting of authors and readers.<br>• **Failure Impact:** Inefficient use of the advertising budget and loss of opportunity due to the project failing to reach target user engagement levels. |
| **9** | Consulting Company | • **Success Impact:** Gaining a strong mentorship reference and prestige upon the StorySphere project achieving its overall goals; generating financial profit (service fee/premium) in return for |

| | | |
|---|---|---|
| | | the professional consulting services provided.<br>• **Failure Impact:** Damage to their strategic consulting reputation if the project fails due to managerial or technical errors, and experiencing financial loss due to uncompensated time spent or penalty clauses.<br>• **Contribution:** Providing strategic guidance to the development team by offering expert opinions in the project's Sprint management, technical architectural decisions, and risk analysis processes. |
| **10** | Government | • **Success Impact:** Providing seamless age verification for 18+ content through e-Devlet integration and raising data security standards in digital publishing.<br>• **Failure Impact:** Legal sanctions in case of age filter bypass or data leaks, LPPD (KVKK) violations, and |

| | | |
|---|---|---|
| | | loss of public trust.<br>• **Contribution:** Providing the e-Devlet identity authentication API infrastructure and determining the necessary legal framework for digital content security. |
| **11** | BANK | • **Success Impact:** Providing secure payment traffic and gaining transaction volume when authors earn income from their published books or when readers use the subscription/donation system.<br>• **Failure Impact:** Loss of financial transaction reliability and the potential loss of a digital payment business partner.<br>• **Contribution:** Offering secure Payment Gateways for the platform's financial infrastructure and |

| | | |
|---|---|---|
| | | managing money transfer processes. |
