SOFTWARE TOOLS DOCUMENT

PROJECT NAME: StorySphere: A Safe and Interactive Digital Platform for Writers and Readers
GROUP MEMBERS: Efe Şahin, Selcen Aksu, Azra Bayhan, Berkay Gökçe, İsmet Eren Çetin, Ayça Baygar, Zeynep Ekin Zengin

TASK #	PROJECT TASKS WHICH REQUIRE SOFTWARE TOOL SUPPORT
1	Version Control & Code Collaboration
2	UI/UX Design & Prototyping
3	Project Management & Task Tracking

SOFTWARE TOOLS FOR TASK 1: Version Control

Tool Cost/Training/Functionality Data

Tool	GitHub	GitLab	Bitbucket	Azure DevOps
Cost	$48	$348	$36	$72
Training Days	1	3	2	4
Functionality	95	90	80	85

Normalized Cost/Training/Functionality Data

Tool	GitHub	GitLab	Bitbucket	Azure DevOps
Cost	13.8	100.0	10.3	20.7
Training Days	25.0	75.0	50.0	100.0
Functionality	100.0	94.7	84.2	89.5

Normalized Tool Graph

Which tool has been selected? Why?

"We selected GitHub for Task 1 (Version Control and Code Collaboration). Based on rule 6 of our selection process (personal budget and time constraints), GitLab's annual cost (100.0) exceeds our student budget. Meanwhile, Azure DevOps requires too much initial training time (100.0) due to its complexity. Although Bitbucket is the cheapest option (10.3), our team is already familiar with GitHub, minimizing our training time (25.0). Ultimately, GitHub is the most rational choice, offering maximum functionality (100.0) for secure storage and collaboration without straining our budget or taking up extra learning time."

SOFTWARE TOOLS FOR TASK 2: UI/UX Design & Prototyping

Tool Cost/Training/Functionality Data

Tool	Figma	Adobe CC	Sketch	Balsamiq
Cost	$144	$720	$120	$108
Training Days	3	5	4	1
Functionality	95	80	85	50

Normalized Cost/Training/Functionality Data

Tool	Figma	Adobe CC	Sketch	Balsamiq
Cost	20.0	100.0	16.7	15.0
Training Days	60.0	100.0	80.0	20.0
Functionality	100.0	84.2	89.5	52.6

Normalized Tool Graph

Which tool has been selected? Why?

"We selected Figma for Task 2. Considering our personal funds, Adobe XD's package cost (100.0) and training time (100.0) are unrealistic. While Balsamiq is budget-friendly (15.0), it lacks the functionality (52.6) needed for final designs. Sketch is a good alternative, but its macOS-only support would cause hardware incompatibility within our 7-person team. Ultimately, we chose Figma because it is a device-independent, web-based tool that allows real-time collaboration and meets our visual requirements with maximum functionality (100.0)."

SOFTWARE TOOLS FOR TASK 3: Project Management & Task Tracking

Tool Cost/Training/Functionality Data

Tool	Asana	Jira	Trello	ClickUp
Cost	$132	$98	$60	$84
Training Days	3	5	1	4
Functionality	85	95	60	90

Normalized Cost/Training/Functionality Data

Tool	Asana	Jira	Trello	ClickUp
Cost	100.0	74.2	45.5	63.6
Training Days	60.0	100.0	20.0	80.0
Functionality	89.5	100.0	63.2	94.7

Normalized Tool Graph

Which tool has been selected? Why?

"We selected ClickUp for Task 3. Although Jira offers the highest functionality (100.0), its steep learning curve (100.0) risks wasting team time. Asana, meanwhile, has the highest cost (100.0). While Trello is cheap and easy to learn, it lacks the functionality (63.2) needed to manage our software processes. Ultimately, ClickUp is the most optimized tool for budget and performance. It provides a more affordable cost (63.6) compared to Asana and Jira, along with the second-highest functionality (94.7) to manage all our work packages and team assignments."
